

Using our Products:

FACE CREAMS - will keep for at least 3 months with careful use. We don't use emulsifiers (which are of no benefit to skin or health) or any synthetic chemicals. So they behave a little differently from conventional creams. They come in shades of creamy gold & may change a little over time. A textured graininess can develop as the butters & waxes separate a little, melting immediately in contact with warm skin. If droplets of Aloe vera juice appear, just pour away.

How to use the face creams:

- Open jar soon after purchasing and ideally use each day.
- Daily opening is the best preservative.
- Keep away from sources of direct heat and light.
- Ensure that fingers are clean before popping into jar.

BALMS, FACIAL OILS & BODY BUTTERS - will keep for at least 6 months if stored away from sources of heat as these ingredients are more stable.
